

Universal Model United Nations

ABOUT US

**AN INTERNATIONAL ORGANIZATION THAT HOLDS MUN
CONFERENCES AND EVENTS**

WHERE FUTURE LEADERS CONVERGE!

ABOUT US

Universal Model United Nations is a growing youth-led international organization that holds virtual conferences and simulations globally for aspiring leaders and debaters worldwide concerning the United Nations in 2021 and beyond. It revolves around individuals learning about diplomacy, debate, foreign policies and international relations through broadening their knowledge to solve current world affairs. Youngsters and teenagers alike, will be exposed to new and different cultures, ethnicities, ideas and people to channel their perspectives to reach commonalities. We not only enhance research, critical thinking, collaboration, risk-taking, leadership and communication skills crucial for any future endeavors, but also create open-minded global citizens desired in our ever-changing world today.

OUR VISION

Universal MUN continues to raise awareness about global issues, concerns, and challenges, emphasizing the dire need for action and reform through our platforms and conferences. Being an influential youth-led organization, we firmly believe in youth empowerment. Our main maxim being, sculpting today's youth will form the ambitious leaders of tomorrow. UMUN consequently provides a vast platform for the youth's voices to be heard, in relation to our prestigious slogan, "Where future leaders converge!"

OUR FUTURE AMBITIONS

Universal MUN aspires to go above and beyond by just hosting online and offline Model United Nations conferences, aiming to go into the world and inflict change regarding the Sustainable Development Goals and humanitarian crises. This is through hosting multiple events both ourselves and with our different Non-Governmental Organizations partners, such as that for Environment day on June 5th, 2021 with activists from Greenpeace and individuals from across the world participating in various activities!

We have a series of videos on our social platforms such as Instagram dedicated to spreading awareness with special and renowned intercontinental guest speakers sharing their experiences and passing on knowledge about different humane crises to influence and inspire other individuals on taking action, or simply being aware and mindful.

Furthermore, we continue to have massive plans for Universal MUN to sponsor limitless activism and services done by both virtual and hands-on help in our societies. Above mentioned would be put to work through volunteer programs, donations and events for the underprivileged, preserving our environment, endangered wildlife, wellbeing of humanity, mental health awareness and so on, aimed to make our progressive world a much better place.

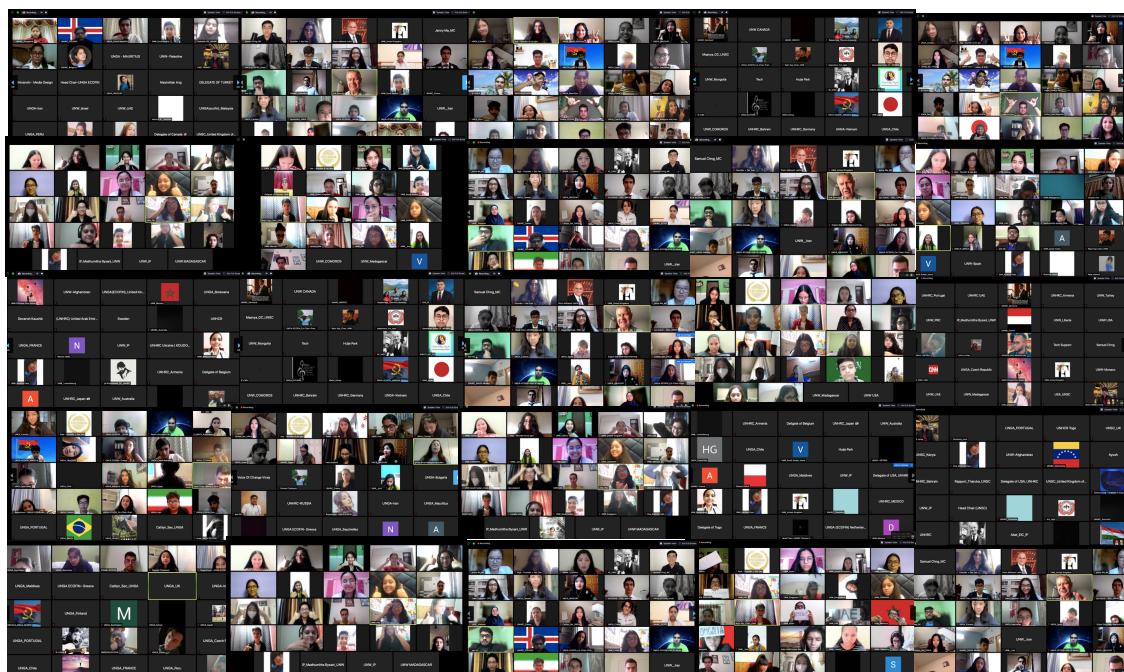

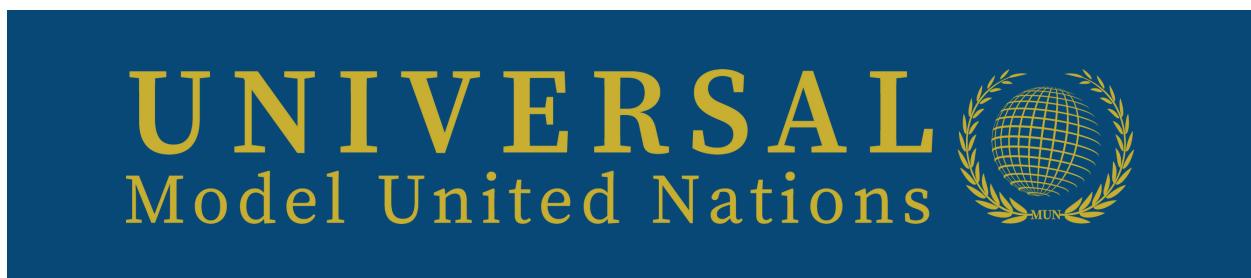

ABOUT OUR PREVIOUS EDITION

Even though being newly established in 2020, Universal MUN consists of an incredibly diverse team consisting of over 30 different nationalities that come together from different backgrounds to not only have fun, learn and grow together but also make Universal MUN's envisionsments a reality.

Our first conference was held online on 10-11 July 2021, which consisted of 5 exciting committees (UNW, UNSC, UNHRC, UNGA-ECOFIN, IP)! The conference had over **300 delegates from over 60 different nationalities!** We were also joined by **highly esteemed guests from the United Nations**, ASEAN and more!

UMUN provided an enthralling and enriching experience to all delegates, from previous MUN-lovers to new individuals trying to find and rediscover themselves and their interests! Being completely beginner-friendly with well-planned and detailed resources, training sessions, experienced and cordial Executive Board members, along with a team constantly striving for the best, Universal MUN truly provided an unforgettable conference for youths of all ages worldwide.
